What to do with Leftover LATEX paint?

1. Reduce:

Buy Only the Paint You Need

That way, you reduce the chance of having any paint left over in the first place.

2. Store Paint So It Lasts for Years

Just cover the opening with plastic wrap and replace the lid.

Then, store the paint can UPSIDE DOWN!

3. Reuse:

Use Up All Your Paint

Now that you know how to keep your leftover paint fresh for years, don't forget about it.

4. As a Last Resort . . . Dispose of Paint Properly

If the paint is still a liquid, you will need to dry out the paint. Once dry, discard with your normal trash with lid off.
